Katrina – Here is the User Request documenting the deletion of the RI Activity from Wilcox Oil SEMS Site Schedule.

Also – I did not send instructions to all of the RPMS to enter Planned Obligations in SEMS because John asked me to wait. He needs to speak with Jo Ann Gee and the other managers as there are no controls in SEMS that will allow the managers to be notified when you all enter the planned obligations in SEMS. They need time to work out some type of process to keep track of the entries. John said he would let you all know when you can begin to enter the money in SEMS.

Thank You,

Alice
